PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building production websites and web applications on the MERN stack, including responsive user interfaces, REST APIs, and database-backed backends. Builds AI-powered products using Next.js, TypeScript, and the Gemini API, with real-time features and payment integration. Also experienced in developing custom software for medical equipment, preparing technical product catalogues, and supporting customer deployment and setup.

TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Responsive Web Design
Backend	Node.js, Express.js, REST APIs, Socket.io
Database	MongoDB
AI & Payments	Gemini AI API, Stripe, Razorpay
Tools	Git, GitHub, VS Code, Postman

PROFESSIONAL EXPERIENCE

Full Stack Developer | Hanuman Healthcare

Nov 2024 – Present | New Delhi

- Develop and maintain web applications and responsive corporate websites for a medical equipment enterprise using React.js, JavaScript, HTML, CSS, and Tailwind CSS.
- Build full-stack features with Node.js, Express.js, REST APIs, and MongoDB, and troubleshoot and update applications as business and customer needs change.
- Developed an application used with medical equipment and supported its installation and deployment at customer sites.
- Prepare and maintain technical product catalogues covering equipment specifications and features to support sales and customer requirements.

PROJECTS
